Good wishes for your research
Dear Mr. Weisberg - Peter Dale Scott

Thank you so much for taking the time & trouble to answer my questions. I am curious about your regard to Whitewash. Will it be also available through you & what will be its content? There are other books out on JFK murder. I have also Buchanan's "Who Killed Kennedy" & he offers some very interesting theories & like you he criticizes the Warren findings. Also in recent print some writer is asking for a reopening of the case. So you see, your books & those others are bearing fruit & awakening public consciousness. I simply abhorred no respect in anything & surely saw it in the whole Conclusion of the Warren report even the mildly articulate, & long ago I suspected a conspiracy & more than not the age. It does not take a great intellect to see things & such things & often it is quite plain.
